

Dear Colleagues,

MaToK, the Torah curriculum for Solomon Schechter Day Schools, will hold its next orientations on **August 3-5, 2010**, at the **Jewish Theological Seminary in New York City (122<sup>nd</sup> and Broadway)**.

Teachers and administrators who have participated in this workshop have said things like, "I cannot express fully how inspiring and energizing you were! This was a great opportunity for us to learn and study with a master teacher. It was an incredible experience from which we are still feeling the effects!" (Catriella Freedman, Judaic Studies Principal, Bet Shraga Hebrew Academy of the Capital District)

If you or a teacher on your faculty is new to MaToK, this workshop will give new meaning to teaching and learning Torah. Please use this registration form or download it from our website (<http://ssdsa.org/?page=matok>) and fax or mail it to me at the address below. Educators from both Schechter schools and non-Schechter schools are more than welcome. You may also choose to participate via the internet. Each participant will need a computer, a webcam and a telephone (cell phones do not work so well). Please indicate your preferences on the registration form.

If you would like to learn more about MaToK in advance, you may wish to read the Principles Governing Development of the Curriculum at our webpage. There are also sample pages from our student booklets, a grid that outlines the contents of MaToK, and much more. And if you would like to learn more, in advance of the workshop, please do not hesitate to call.

I look forward to meeting you and your teachers, and to the excitement of exploring Torah together.

Sincerely,

*Debby*
